

# DRONE SAFETY SONG FOR KIDS

## Drone Safety Song for Kids - Lyrics

Songwriter: Chris Mather and Bendigo Aerial  
Produced and Sung: Ray Amir

2021 Copyrighted: © © All Countries

## Verse 1

Hey! Hey! Today's a good day  
To go out and fly a drone!  
I know you really want to play  
But you should never do it alone.

An open space is the perfect place,  
But never fly one in the rain.  
Don't go too far up in space  
And watch out for those aeroplanes.

## Chorus

Grab your drone, let's fly  
Up, up, into the sky  
Far away, but never out of sight,  
All day long but not at night.  
So, grab your drone, let's fly,  
Up, up into the sky.

## Verse 2

Watch out with both eyes,  
so that there's no surprise.  
Keep away from roads and cars,  
And never stray too far.

Please give people their space,  
Don't get all in their face.  
Don't fly near a crowd  
It's just not allowed.

## Chorus

Grab your drone, let's fly  
Up, up, into the sky  
Far away, but never out of sight,  
All day long but not at night.  
So, grab your drone, let's fly,  
Up, up into the sky.

## Verse 3

Taking our drone out into the sun  
It's going to be so much fun  
If you learn to fly your drone safely.  
Smiles and laughs are guaranteed.

Drones may look like a toy  
But they can be a danger for things nearby  
Let's learn how to safely fly  
And have more fun in the sky

## Chorus

Grab your drone, let's fly  
Up, up, into the sky  
Far away, but never out of sight,  
All day long but not at night.  
So, grab your drone, let's fly,  
Up, up into the sky.
